

KVM SWITCHES

The 098-8044 Slim Palmtop USB KVM Switch is a 4-port compact KVM Switch with Audio and Mic switching function. Its USB support on the console side allows you to use USB keyboard and mouse. It comes with 4 sets of detachable USB KVM combo cables & 4 sets of Audio/Mic cables for SOHO and office desktop multimedia application. And it allows you to access, control, boot and reboot four USB enabled multimedia computers with only one USB keyboard, mouse, monitor and optional speaker set and microphone, using the Switching Software Client installed on your PCs.

The audio and microphone switching function of 098-8044 allows you to leverage the multimedia systems on each of your two computers. You can monitor the audio/mic input/output of each computer without plugging on and off the audio/mic cables. User can also choose to use either independent/simultaneous switching of both PC channel and audio/microphone channel for their maximum convenience. And it takes only one set of speaker and microphone instead of one set for each computer. Furthermore, it offers you user programmable simultaneous/independent PC and audio/mic switching function for flexible multimedia and KVM Switching operation.
